APPLICATION CONSIDERATIONS

The proper selection and application of power transmission products and components, including the related area of product safety, is the responsibility of the customer. Operating and performance requirements and potential associated issues will vary appreciably depending upon the use and application of such products and components. The scope of the technical and application information included in this publication is necessarily limited. Unusual operating environments and conditions, lubrication requirements, loading supports, and other factors can materially affect the application and operating results of the products and components and the customer should carefully review its requirements. Any technical advice or review furnished by Regal Beloit America, Inc. and its affiliates with respect to the use of products and components is given in good faith and without charge, and Regal assumes no obligation or liability for the advice given, or results obtained, all such advice and review being given and accepted at customer's risk.

For a copy of our Standard Terms and Conditions of Sale, Disclaimers of Warranty, Limitation of Liability and Remedy, please contact Customer Service at 1-800-626-2120. These terms and conditions of sale, disclaimers and limitations of liability apply to any person who may buy, acquire or use a Regal Beloit America Inc. product referred to herein, including any person who buys from a licensed distributor of these branded products.

IT'S A TOUGH JOB.

Spend less time walking the job site.

Browning®

Shaft Mount TorqTaper Plus

- Dust and particulates encounter a rotating metal flinger and V-ring face seal before reaching the spring loaded oil seal – these **three barriers** are beneficial in tough applications
- Browning Split Taper Bushing System designed to optimize shaft locking with **ease of installation** in mind
- Complete Line of Aggregate Duty Belts and Sheaves with the Patented B5V combination groove technology that offers **maximum drive efficiency**

SEALMASTER®

Mounted Roller Bearings

- Innovative Unitized Spherical Roller Bearing with industry leading sealing technology
- Spherical Roller Geometry allows for Optimal load and speed capacity with +/- 2 Degrees misalignment
- Problem solving RPB Tapered Roller bearing with direct lubrication system
- +/- 3 degrees self aligning capability with race mounted sealing
- Innovative seal design outperformed competitive designs in wet & dry lab tests

SEALMASTER®

Mounted Ball Bearings

- The Gold line, an Industry standard in mounted ball bearing **performance**
- Designed for **tough environments** with race mounted sealing options to fit each application
- The exclusive pin & dimple lubrication system ensures that grease gets to the ball path and prevents outer race rotation
- Available in both **inch and metric** shaft sizes with a wide variety of cast iron housing options

CSI

CSI Best in Class Diagnostics

CSI 9420

- Complete line of Asset Management equipment from route based programs to on-line machinery monitoring
- **CSI 2140** Advanced Vibration Analysis and Balancing
- **CSI 9420** Wireless Vibration transmitters
- **CSI 6500** Online Machinery Monitoring

CSI 2140
